Profile

A dedicated software engineer, fueled by a genuine passion for crafting cutting-edge solutions. Work, for me, is more than just a task, it's a joyful journey. I thrive on challenges, constantly learning and growing. I try to transform complex problems into elegant code. With a hunger for learning, I eagerly embrace new technologies. I firmly believe in the simple goal of being better than yesterday.

Courses

- JavaScript, Udemy
- Node/Express, Udemy
- NestJS, Udemy
- GraphQL, Udemy
- PostgreSQL, Udemy
- AWS, Udemy
- Docker & Kubernetes, Udemy

Employment History

Software EGINEER, Yara Bulgaria, Remote

APRIL 2023 – AUGUST 2023

I was working in an international team from whole the world. Creating a massive app in the green sector responsible for how people affect the environment when cultivating the land, our software takes maximum care of the land and the release of harmful particles.

Portfolio

This portfolio includes all my personal and work projects. Please keep in mind the portfolio itself was not created by me. Instead, I used a ready-to-go template that I manually customized for my specific needs.
